"SUNFIELD SAYS"

"We don't mean to crow but the "dope" we have been giving you for your friends about prices have saved a lot of them some money. Don't let your other friends wait too long for delays in purchasing the seed they need will most likely prove costly.

If you have been watching Market Reports, you will see how much higher some seeds are than they were a while back. Still further increases of price can be expected soon. The farmer who delays his buying will be paying the penalty thru higher prices and uncertainty of getting what he wants to plant.

Help us serve our mutual farmer friends by inducing them to buy the right kind of seeds, at the right time, at the right prices and from the right Place (SUNFIELD SEED SERVICE).

We shall all gain thru the savings we make your friends -- more Good-Will for you and for us -- and Increased Profits for All."
